Cyber Security Ratings

Scale your vendor risk program through external,
continuous monitoring

www.bitsighttech.com

Third Party Risk by the Numbers

1 out of 5

businesses have experienced **significant risk exposure** from third parties in the last 18 months*

66%

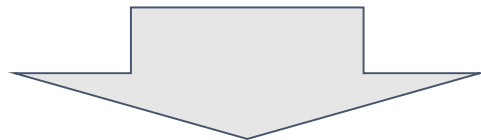

of IT “**decisions makers**” **don’t know** how many vendors have access to their networks***

63%

of **all data breaches** linked directly or indirectly to third party access**

89

different vendors access the average company's network weekly***

Third party risk is increasing significantly, and a new approach is needed to close the gap.

*MetricStream Research on How Organizations Are Managing Third Party Risks

**Soha Systems Third Party Advisory Group

***Bomgar/CSO, 2016 Vendor Vulnerability Index

What If...

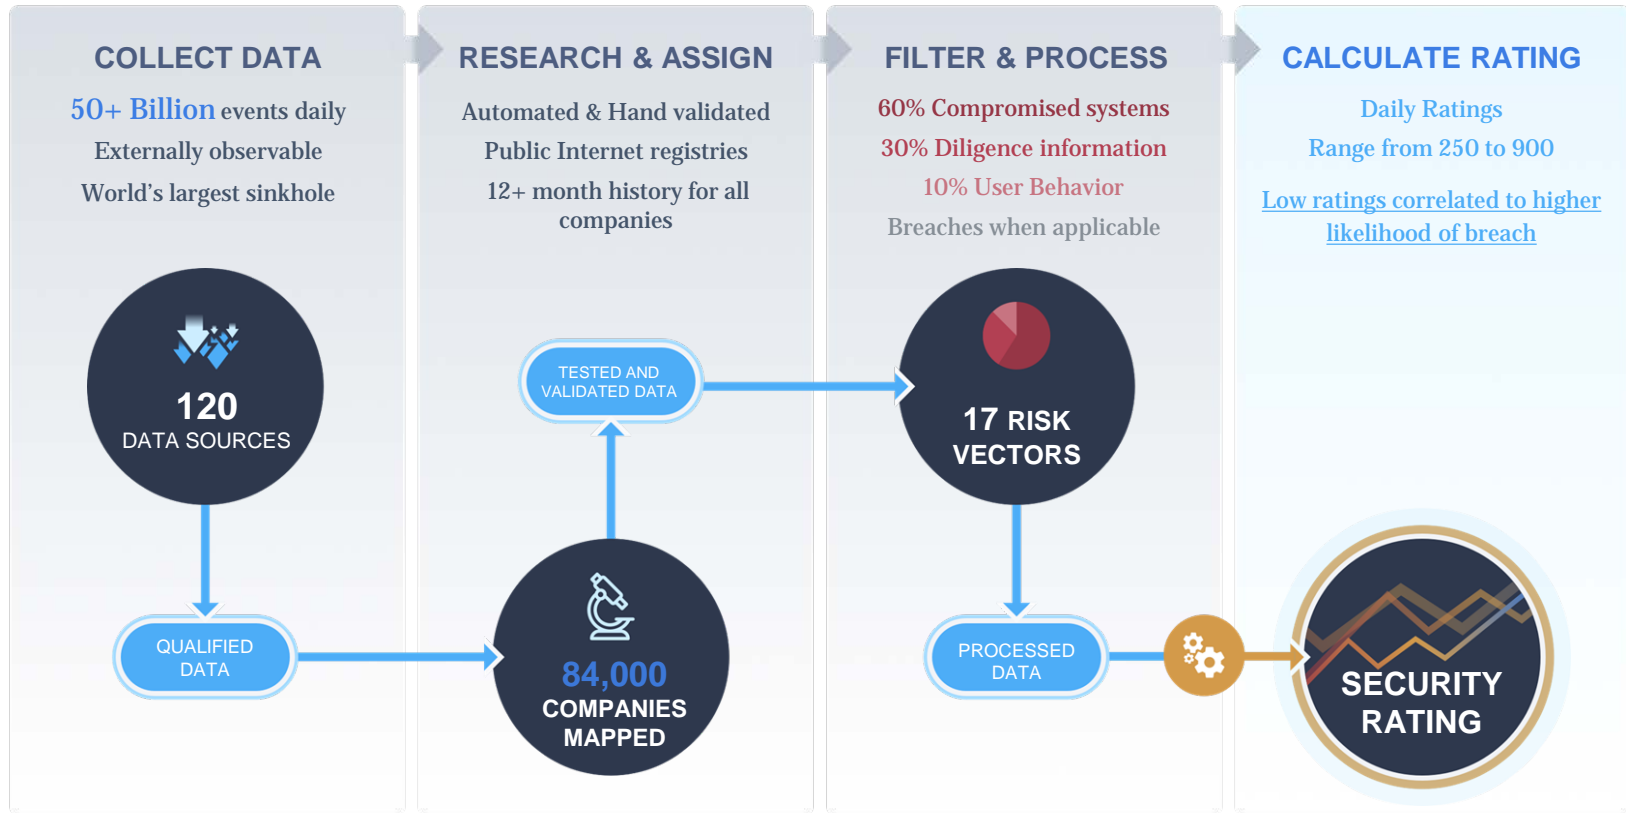

...you could quantify vendor security risks as easily as looking up a consumer credit rating?

- Objective
- Continuous
- Verifiable
- Scalable
- Actionable
- Cost-effective
- Intuitive
- Non-intrusive
