

CLOUD SECURITY DAY 13 th of June 2018							
Start	End	Room A (open)	Room B Christian Sillaber	Room C Lars Minth	Room D Ivan Pepelnjak	Room E Triconplus	
08:00	09:00	Registration & Coffee					
09:00	09:15	Short introduction of the sponsors / event partners at the Cloud Security Day					Workshop Deep and Dark Net Intelligence (separate registration at https://www.sig-switzerland.ch/workshop-deep-and-dark-net-intelligence/)
09:15	09:45	Keynote Ivan Pepelnjak, Independent Network Architect at ipspace.net <i>Three Paths of Enterprise IT</i>					
09:45	10:15	Keynote Tjerk Bijlsma, Technology Officer, Data Center EMEAR at Cisco <i>DC Security Transformation, and how the IT specialist is impacted</i>					
10:15	10:45	Keynote Neil Thacker, CISO, EMEA at Netskope <i>Cloud Security: Assume context at your peril</i>					
10:45	11:15	Break					
11:15	11:40	Franck Braunstedter, Senior Manager Cyber Defence & Cloud Security at NTT Security <i>Roundtable: Make your cloud faster, cheaper and more secure with a fully automated cloud environment!</i>	Thomas Cueni, Security Specialist at Tenable <i>Roundtable: Reducing the Cyber Exposure Gap from Cloud to Containers</i>	Jason Goode, Regional Director at Ping Identity <i>Workshop: Digital Identity Authorities - the Key to Enterprise Cloud Transformation</i>	Workshop Ivan Pepelnjak Amazon Web Services Networking (separate registration at https://www.sig-switzerland.ch/digs-workshop-amazon-web-services/)	Workshop Deep and Dark Net Intelligence	
11:50	12:15	Christian Treutler, Product Manager Security at AVI Networks <i>Roundtable: Application security in continuous delivery pipelines</i>	Pierre Visel, Regional Director at Tufin <i>The benefits of hybrid network infrastructures will be ruined without security automation</i>	Barry Scott, CTO EMEA at Centrify <i>Workshop: Zero Trust Security – Never Trust, Always Verify</i>			
12:15	01:45	Lunch					

CLOUD SECURITY DAY 13 th of June 2018						
Start	End	Room A (open)	Room B Christian Sillaber	Room C Lars Minth	Room D Ivan Pepelnjak	Room E Triconplus
01:45	02:15	Keynote Matthias Luft, Security Researcher & CEO <i>Using the Modern Application Stack to Improve Security</i>			Workshop Ivan Pepelnjak Amazon Web Services Networking	Workshop Deep and Dark Net Intelligence
02:15	02:45	Keynote Christian Laux, Attorney-at-Law and Partner at LAUX LAWYERS AG <i>Internet of Things: A Concept for the Future</i>				
02:45	03:15	Keynote Guido Gerrits, Market Owner Identity & Access Management at Gemalto IDP <i>From today's User Authentication to the Identity & Access Management of the future</i>				
03:15	03:45	Break				
03:45	04:10	André Doehn, SE Manager DACH, Juniper Networks <i>Intent-driven Security policies for Multicloud environments</i>	Stephan Fritsche, Cloud Security & IaaS Manager at Check Point <i>Workshop: Cloud – Agile and dynamic but also secure – Blueprint & Demo</i>	Paul Vriens, Solution Architect at iWelcome <i>Identity and IoT – how to manage complex user interactions in the cloud</i>	Workshop Ivan Pepelnjak Amazon Web Services Networking	Workshop Deep and Dark Net Intelligence
04:20	05:20	Leif Kremkow, Director Technology at Qualys <i>Workshop (you need a tablet/ notebook!): How to secure the Information System that is in the Cloud</i>	Bil Harmer, Strategist, Office of the CISO at Zscaler <i>Workshop: Protecting a network you don't control</i>	Sven Staible, Project Manager / Senior Software Engineer & Alex Pattupara, Security Consultant at Keyon AG <i>Secure collaboration with Intune – BKW Success Story</i>		
05:20	07:00	Apéro Riche				
07:00	open end	Joint Dinner (by choice)				

THREAT INTEL DAY 14 th of June 2018				
Start	End	Room A Pascal Busch	Room B Christian Sillaber	Room C David Gugelmann
08:00	09:00	Registration & Coffee		
09:00	09:30	Short introduction of the sponsors / event partners at the Threat Intel Day		
09:30	10:00	Keynote Martin Lee, Technical Lead of Security Research at Talos <i>The Destructive Menace of Wiper Malware</i>		
10:00	10:30	Keynote James Blake, Global Strategist Cyber Security Services at Micro Focus <i>Top 5 Mistakes in Security Operations</i>		
10:30	11:00	Break		
11:00	11:25	Omar Benjumea - Cybersecurity Architect at Kudelski Security <i>Evolution of Operational Technology risks</i>	Leif Kremkow, Director Technology at Qualys <i>Workshop: Detection Tsunami – Threat Intelligence as understood by a vendor and a customer</i>	Iliia Kolochenko, CEO & Founder at High-Tech Bridge <i>Application Security Strategy and AST Lifecycle</i>
11:35	12:00	Thomas Cueni, Security Specialist at Tenable <i>Roundtable: How “The Center for Internet Security’s” Controls 1-5 Could Have Prevented Headline-Making Breaches</i>	Christian Götz, Director of Presales & Professional Services DACH at CyberArk <i>The threat from inside – Privileged Accounts</i>	Dr. Endre Bangerter, Professor of Computer Science at Bern University of Applied Sciences <i>Code based threat intelligence at large scale</i>
12:00	01:30	Lunch		

THREAT INTEL DAY 14 th of June 2018				
Start	End	Room A Pascal Busch	Room B Christian Sillaber	Room C David Gugelmann
01:30	02:00	Keynote Bil Harmer, Strategist, Office of the CISO at Zscaler <i>Confessions of a Corporate CISO</i>		
02:00	02:30	Keynote Hugh Pyle, Product Leader at IBM Resilient <i>Orchestration & Automation: Use your existing Security investments to drive better Incident Response</i>		
02:30	03:00	Keynote Stefan Mausser, Managing Director and Cybersecurity Professional at TriConPlus AG <i>Let there be light! An Introduction to the Darknet and how it can affect your corporate security</i>		
03:00	03:30	Break		
03:30	03:55	Stewart Bertram, Director of Closed Sources and Professional Services at Digital Shadows <i>What the dark Web's history can tell us about its future</i>	Tyler Oliver, Director of Endpoint Detection and Response, EMEA at Tanium <i>The 5 W's of Applying Intelligence to Your Endpoints</i>	Yolan Romailer, Security Researcher at Kudelski Security <i>Open source code, bugs, audits and security</i>
04:05	04:30	Steven Bullitt, Global Vice President, Threat Intelligence & Incident Response at NTT Security <i>Roundtable: Broaden your threat intelligence capabilities for a better threat detection and incident response</i>	Christian Herb, Strategic Alliance Architect EMEA at DigitalGuardian <i>Data-centric Threat Intel – Actionable Intelligence from where the assets are</i>	Alain Mowat, Head of Audit Division at SCRT <i>Why hackers keep compromising your most important assets</i>
04:40	05:05	Patryk Pilat, Senior Presales Engineer at Blueliv <i>Workshop: Current Analysis of the Threat Landscape 2018: What you should know to effectively protect yourself</i>	Faisal Habib, Director of Field Engineering and Services EMEA at Cybereason <i>Next generation proactive threat hunting</i>	Olivier Spielmann, Director MSS Operations & Omar Benjumea, Cyber Security Architect from Kudelski Security <i>Overcoming the challenges of cloud monitoring</i>
05:15	05:40	Frank Lange, Principal Security Architect at Anomali <i>Workshop: Threat or not? How Threat Intel supports informed decision making in the modern SOC</i>	Andrea Bellinzaghi, Senior SE EMEA at IntSights <i>Using OSINT to Detect Attacks</i>	Jonas Spieckermann, Senior Sales Engineer at Watchguard <i>GameON –Perfecting a Defensive Strategy That WINS Against Malware (incl.LiveDemo)</i>
05:40	open end	Apéro Riche
